Applicant(s): CHUGAI ELECTRIC IND CO LTD (JP)

Requested Patent: KR8301156.

Application Number: KR19820003206 19820715

Priority Number(s): KR19820003206 19820715; KR19790000946 19790326

IPC Classification: C22C5/06

EC Classification:

Equivalents:

### Abstract

An electrical contact material is obtained through internally oxidizing a silver alloy containing 3 to 11 weight percent tin. The contact resistance of the alloy material is improved by diffusing into the silver matrix. In addition, further solute metals selected from Sb, Pb, Mn, Mg, Sn, Bi and In may be added.
